# ETERNAL CREATION OF YOUR PAGE (WordPress edition)

Select the lenguage you want for your Wordpress and press Continue.

### It will appear this page, press Let's Go!

 $We lcome to Word Press. \ Before getting started, we need some information on the database. You will need to know the following items before proceeding.$ 

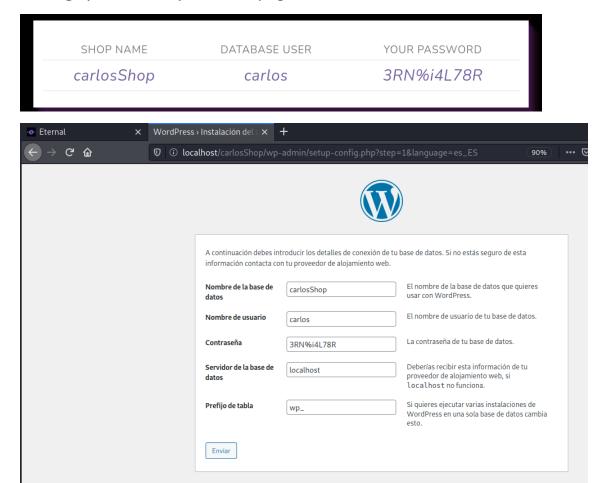

- 1. Database name
- 2. Database username
- 3. Database password
- A Database hos
- $5. \, {\sf Table \ prefix} \ ({\sf if \ you \ want \ to \ run \ more \ than \ one \ WordPress \ in \ a \ single \ database})$

We're going to use this information to create a wp-config.php file. If for any reason this automatic file creation doesn't work, don't worry. All this does is fill in the database information to a configuration file. You may also simply open wp-config-sample.php in a text editor, fill in your information, and save it as wp-config.php. Need more help? We got it.

In all likelihood, these items were supplied to you by your web host. If you don't have this information, then you will need to contact them before you can continue. If you're all ready...

Let's go!

In this page you need to **change the default settings** to your **custom settings** you have in your main page of **Eternal website**:

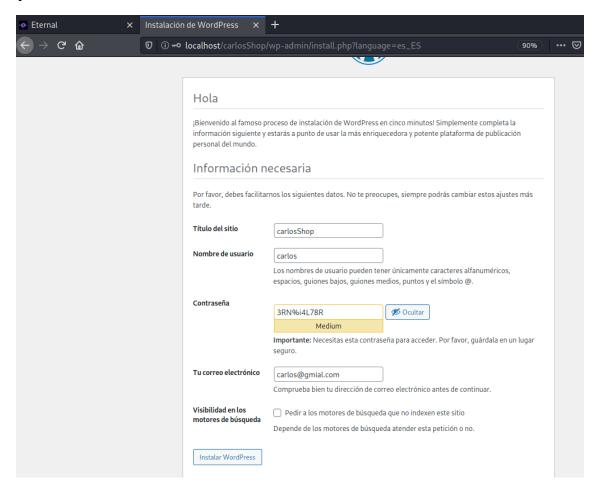

<sup>\*</sup>Don't change **Database Host** and **Table Prefix** (this is required for your page to work)

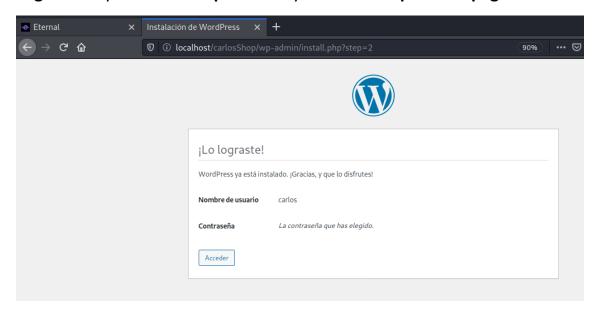

#### Click "RUN THE INSTALLATION"
